## Experience

### 2022 - 2023

Cloud Microfinance Bank

#### Full stack Developer

Developed and maintained full-stack web applications for Cloud Microfinance Bank by collaborating closely with cross-functional teams including product managers, designers, and stakeholders to gather requirements and translate them into technical specifications. Designed and implemented responsive and user-friendly front-end interfaces using HTML, CSS, and JavaScript frameworks such as React and Redux. Developed robust back-end systems using modern programming languages like Node.js and Express,

### 2021 - 2022

Freelancer

#### Backend Developer

Designed and developed backend systems using Node.js and Express.js for a high-traffic web application resulting in a 20% increase in performance. I implemented RESTful APIs to integrate with front-end applications and third-party services by working closely with the front-end development team to ensure seamless integration and optimal user experience

### 2019 - 2021

Myriads Digital Limited

#### Front End Developer

Developed and maintained scalable and responsive web applications using React.js, HTML, CSS, React-Native and JavaScript to deliver engaging user experiences. I wrote reusable React components and optimized codebase for performance, ensuring smooth rendering and efficient data updates. I utilized modern frontend tools and libraries, such as Redux, Axios, and Styled Components, to manage state, handle API calls, and create visually appealing UI elements.
