English

## PROFILE

Enthusiastic and detail-oriented Front-End Developer with a passion for building intuitive and user-friendly interfaces. Looking to bring my expertise in React and other front-end technologies to create engaging digital experiences and proficiency in crafting visually appealing and interactive web experiences. Seeking a Front End Developer role to leverage my skills in building user-centric websites.

------------------------------------------------------------------------------------------------

## WORK EXPERIENCE

### Front-End React Developer

Cloud Microfinance Bank                                                    2022-2023

- Successfully built and maintained responsive, high-performance websites for various clients by leveraging front-end technologies such as React.js, Redux, and JavaScript.
- Enhanced user experience by developing interactive UI components and optimizing load times, leading to a 35% increase in user engagement across all clients.
- Collaborated with clients and UX/UI Designers to create aesthetically pleasing layouts and implement user-friendly features.
- Utilized node debugger for robust testing of components and applications, ensuring the delivery of high-quality, bug-free products.
- Used Git and GitHub for version control, enabling seamless collaboration with other developers on projects.
- Regularly updated clients on project progress, addressed feedback, and implemented changes in a timely manner, leading to 100% client satisfaction.
- Ensured cross-browser compatibility and optimized performance for seamless user experiences.

### Front-End Developer

Myriads Digital Limited                                                    2020-2022

- Developed and maintained scalable and responsive web applications using React.js, HTML, CSS, and JavaScript to deliver engaging user experiences.
- Collaborated closely with product managers, designers, and backend developers to gather requirements, provide input on technical feasibility, and translate design mockups into interactive interfaces.
- Implemented reusable React components and optimized codebase for performance, ensuring smooth rendering and efficient data updates.
- Utilized modern frontend tools and libraries, such as Redux, Axios, and Styled Components, to manage state, handle API calls, and create visually appealing UI elements.
- Worked closely with UI/UX designers to ensure seamless integration of design assets and maintain consistency across the application.
- Conducted thorough unit testing and debugging of frontend code to ensure high-quality deliverables that meet functional requirements.
- Collaborated with backend developers to integrate frontend with RESTful APIs, ensuring efficient data flow and real-time updates.
